School # 12 for Children with Hearing Impairment – DOORS RENOVATION

Site location: Cuza Voda Street, #34, Chisinau, Moldova
School Administration: Nina Rusu 022921889

The purpose of this project is to improve essential services and provide a safe learning environment for over 150 children with hearing impairments by changing the doors of School No.12. This institution serves as a boarding school for 40 children out of the 150. The project supports the U.S. Mission Strategic Plan and Country Cooperation Plan. Work will be performed by Moldovan contractors with oversight by the ODC/BAO.

PROPOSED SCOPE OF WORK

The project includes the replacement of all the existing internal doors of the facility. The work includes, but is not limited to:

- Remove all the wood from the door opening, including the frames, trims and anchors.
- Provide new solid aluminum doors of the sizes according to current doors. 4 doors in the hallway need to have glass window.
- New doors shall have full frame and jambs.
- New doors to be provided with locks with similar operation as the existing doors.
- New doors shall be provided with all required accessories, including door stops, hinges, and stainless steel mop plates.
- New doors to be provided with door handles.
- Finishing works after installation of the doors including – plaster finish, paint to match existing adjacent surface.

Works must be fully completed by August 30, 2013, Contractor is responsible for tidying up the construction site.

Interested companies should contact School Administration for survey and send their quotations to the following E-mail addresses: FehrGT@state.gov and CerneavV@state.gov not later than August 6, 2013, 17:00.
